

Turf Management: **Mowing-Trimming-Blowing-Edging**

Turf areas will be cut at 3-4 inch height using rotary mower appropriate for size of area. Blade will sharp at all times and clipping will not be caught and recycled in the lawn.

Trimming grass missed by mowing services using a commercial hand held weed wacker around trees, signs, shrubs etc. will be preformed weekly or bi-weekly ,at clients choice, to present a clean appearance.

Blowing all debris created by mowing and trimming services after each mowing of sidewalks , streets and mulched areas.

Edging sidewalks, curb areas and street areas with hand held vertical edging machine.
